PAYMENT POLICY AND METHODS

The patient will be required to pay an initial non-refundable deposit of €1.500 payable at the time of confirmation of treatment. This deposit is considered part of the total cost of the treatment.

The next payment must be made prior to donor allocation. This payment is equivalent to the total cost of the treatment plus the donor's medication, after deduction of the €1.500 deposit.

Payment for any other services not included, required on a case-by-case basis, will be requested by your medical coordinator where applicable (see Appendix of services not included).

Payment methods: Online payment (secure payment gate), bank transfer, credit card or in cash (EUR).

CANCELLATION POLICY – 1 CYCLE

Cancellation of the cycle before the egg retrieval:

The deposit of €1.500 will be kept on account for a next treatment. In case of not continuing with any treatment, the deposit will not be refunded.

Cancellation for absence of mature oocytes or non-recovery of oocytes:

The total cost of the cycle will be €2.150. The difference paid will be refunded.

CANCELLATION POLICY – 2 CONSECUTIVE CYCLES

Cycle cancellation before the first ovarian retrieval:

If the cancellation is due to the patient's personal decision, €1,500 will be retained to cover administrative, medical, and planning expenses; the remaining amount will be refunded.

In the event of a medical reason, the full amount paid will be retained as credit for the next treatment.

Cancellation after the 1st ovarian puncture:

The amount of one preservation cycle will be charged. The difference paid will be refunded if the patient does not wish to continue.

Cancellation due to the absence of mature oocytes or failure to recover oocytes at the end of the 2 cycles:

A refund of €400 will be made for each puncture without obtaining oocytes suitable for vitrification.

CANCELLATION POLICY – 3 CONSECUTIVE CYCLES

Cycle cancellation before the first ovarian retrieval:

If the cancellation is due to the patient's personal decision, €1,500 will be retained to cover administrative, medical, and planning expenses; the remaining amount will be refunded.

In the event of a medical reason, the full amount paid will be retained as credit for the next treatment.

Cancellation after the ovarian puncture:

The full amount for the cycles performed will be charged, and the remaining balance paid will be refunded.

Cancellation due to the absence of mature oocytes or failure to recover oocytes at the end of the 3 cycles:

A refund of €400 will be made for each puncture without obtaining oocytes suitable for vitrification.
